The Locofoco press are harping over the delay in the delivery of the General Laws of Ohio, and attempt to put the blame upon the Republican State Officers. It would not answer their purpose to let the truth be known in this matter, which is, that the Ohio Statesman office got the job of printing these Laws and is therefore responsible for the delay. Here in Holmes county, where there are none, except those who are such by virtue of their brains, this clap trap is sprung for the purpose of deceiving foreigners into the support of a party that is fast sinking by reason of its own corruption. It may have the desired effect with the ignorant portion of them, but with the reading, intelligent voters in that party, native and foreigner, it will soon require some thing more potent than the ghost of Know Nothingism to freighten them into the support of the most abject slavery, both of body and mind. SEND THE GLAD SHOUT OF VICTORY ABROAD!—The people of Maine have again proclaimed their calm and deliberate conviction of the wrong and iniquity of that "Border Ruffian" policy which would elevate the Slave power in this country into the supreme control of all the departments of the Government. The campaign has been one singularly free from excite ment-and therefore in the highest degree favorable for an unprejudiced expression of opinion; and the result is, that Maine stands as firmly for "free soil, free speech, and freemen" in September, 1857, as she ty, throughout the State this fall. Let us did in September, 1856. It was therefore Mr. Payne resided there? no mere excitement of a Pr tion that induced the people of Maine to roll up a majority of more than SEVEN-TEEN THOUSAND for HANNIBAL HAMLIN, for the sober second thought they have elected LOT M. MORRILL, by a majority nearly as large. The present strength of Hannibal Hamlin or of Lot M. Morrill, has had little to do in either case with the result. They were voted for as the Representatives of a great principle which is dear above all other political matters to the people of Maine. It is honor enough to the gallant and distinguished men under whose lead these two transcend ent victories have been won, to say that they are worthy and honorble representa-

tives of the great cause of which they have been made the standard bearers. We feel peculiar pride in the great tri umph achieved yesterday. The Argus and all the other Border Ruffian papers in the State have been boasting for past, that the Republicans would fall off sadly from their vote of last year, and that the "Democracy" would very nearly hold their own, thus making a very large relative gain. They kept this game of "brag" up with such persistency, that some of our timid friends were really disposed to believe there was something in it, and prepared themselves to realize a meagre victory.-But the day of "talk" has gone by, and now we have the "figures"—and those "figures" show that, although the aggregate vote has fallen off as every one anticipa the Republicans stand in every way as well as they did last year. The "Democracy indeed, have shown no signs of vitality, except in the "cackling" and "bragging" of the Custom House organs and the Federal office-holders. They are repudiated and condemned by the people.-Portland Ad-

The Richmond South, in its exulation at having finally frightened Mr. Buchanan into abandoning an honest policy in behalf of Kansas, and into the adoption of the views and purposes of the nullifiers in regard to the extension of slavery into that territory, says:

"We do not know who 'our partisans in Virginia' are, in the Enquirer's estimation. Our friends-for we have no partisansare the States' Rights Democracy, those who condemned the compromise measures of 1850,' 'secessionists,' dec., and who, in condemding Robert J. Walker and approv ing the just sentiments contained in Mr. Buchanan's late letter, have at once shown their attachment to Republican principles

and their fidelity to the South." The occasion of th's comment, says the St. Louis Democrat, is the recent letter of Mr. Buchanan to certain New England gentlemen, and it would appear that the South, equally with ourselves, recognizes the fact that in that letter the President has thrown himself into the arms of "those who condemned the compromise measures of 1850," or, in the expressive phrase o the South, the "secessionists, &c." We presume, therefore, there will be no question in the future about his "fidelity to the south."-State Journal.

There are no mer more despised at the South, except slavetraders, than those who hunt runaway ne groes. Why a man guilty of such an ac should be respected at the North, we cannot understand. But still we were not prepared for the evidence furnished below, as to Mr. Payne's reputation for veracity .-There is not, that we are aware of, a lower depth than that to which Mr. Pavne's character has been reduced. The question now arises: Will Mr. Payne withdraw? or, will the State Executive Committee remove his name from the ticket?

In the winter of 1839 and 40, Cuyahoga county was represented in the Ohio Legislature by Wne B. Lloyd. This Mr. Lloyd was charged by the Statesman with forgery, and one of the witnesses relied upon to prove the charge was H. B. Pavne. Mr. Lloyd demanded an investigation, and the matter was thoroughly sifted. It seems to have occurred to some of the members of the Investigating Committee that Mr. Payne's word might not be good, and in order to test this matter, a number of friends and acquaintances of Mr. Payne were called upon to testify as to whether they would believe him under oath. The he resides, for truth? first witness called was Mr. Ambrose Spencer, a son of Judge Spencer of New York, in whose office Payne studied law. The following report of the testimony of this and other witnesses, which we clip from the Athens Messenger, that paper informs us; appears upon the record and the facts cannot be denied .- Cincinnati Gazette.

To Mr. Spencer: Question. Are you acquainted with Mr. Payne and if so, how long have you known him, and what is his general character for truth, and from your knowledge of his general character, would you believe him on

Answer. I do know Mr. Payne. I think t was in the year 1833 I first became acquainted with him: his general character for truth I believe is not of the first order, and for my own part, whenever his person al feelings and interests were concerned, A would not believe him under oath.

Question. Do you mean by Mr. Payne H. B. Payne, Esq., the witness heretofore examined by the Committee. And if so have you at any time had a personal misunderstanding with him?

Answer, I mean H. B. Payne, of Cleve and, a partner of Hiram V. Wilson. So far from having had any misunderstanding with Mr. Payne, I have been on the usua terms with him, which exist between gentlemen, since the time he studied law with my father, John C. Answer. In a case pending before the Court of Common Pleas, at Cleveland, an agreement was entered into between Thom Bolton and Mr. Payne to postpone the

trial till the next term. During that term, and during Mr. Bolton's absence from the Court House, Mr Payne drew the attention of the Judge (Humphrey, I think it was.) to the number of his case, and requested that it might be taken up, which was done, and Mr. Bolton stated to me, that afterwards, he was obliged to obtain written agreements from Mr. Payne to oblige him to fulfill his agreements. Answer. It is DOUBTFUL.

T. P. Handy says that he "is acquainted with Mr. P.'s character for truth and veracity;" but won't tell what it is. In reply to the query, he says, "I cannot answer that question."

The Reasons.

The Statesman, whose editor voted for Salmon P. Chase for U. S. Senator in 1848 attempts to justify the oceans of slang which are daily emptied upon him through its columns, by saying that since his election to the Senate, he has devoted himself "to arousing the bitterest sectiona hatred between the people of the North and the South." This the Statesman considers the free People of the South as nothing, and the Aristocracy -the owners of black laborers, as "the South." The interests of the free laborers of the North and the South are identical, and Mr. Chase has labored faithfully to advance their interests. He has steadfastly adhered to the resolution of the Democratic State Convention, held in this city on the 8th of January, 1848, which was re-adopted without alteration at the Democratic State Convention held in 1850, '52, '53, '54, and '55:

"1. Resolved, That the people of Ohio now, as they always have done, look upon slavery as an evil, and unfavorable to the development of the spirit and practical benefits of free institutions, and that entertainthe city of Cleveland, and how long has ing these sentiments, they will at all times Mr. Payne resided there? clearly given, by the terms of the National compact, to prevent its increase, to mitigate, and finally eradicate the evil.

The Statesman then indorsed the sam resolution, but it has backslid from the faith, and charges adherence to it as indicative of a disposition to keep up "a feeling of excited ane embittered aversion" to the South. The Statesman knows this charge to be untrue, and no better evidence of this fact is needed than the enthusiastic reception Gov. Chase received in the city

of Baltimore a few weeks ago. The second reason, that Gov. Chase, ince his election as Governor, "has not only bent all the powers of his office to perpetuate the Kansas trouble, but has grossly neglected his duty in guarding the State Treasury" is equally futile. That Gov. Chase has warmly sympathized with the Free State men in Kansas, in the effort to maintain freedom in that Territory. and throw off the galling and oppressive laws of the Missouri invaders is true, and it is characteristic of the Statesman to urge this as an objection. Its "democracy" wil not permit it to go counter to the policy of Atchison, who is moving all the power at his command to make Kansas a slave State. It is fair to infer therefore that the Statesman with all its pretended hatred of "niggers," is in favor of carrying out the Amalgamation policy on the plains of Kansas. As to the other branch of the objection, the report of Mr. Sparrow shows conclusively that "John G. Breslin abstracted the money from the Treasury" before the Republican Administration came into power, and that there has been no lack of vigilance on the part of the State officers to protect the public money. In the face of these facts the Statesman employs its ingenuity to try to make it appear that Gov. Chase is the guilty party, and that John G. Breslin is innocent. So much for the Statesman's "two reasons." - O. S.

An Indian dismounted and approached a corporal of my company, holding out his right hand, as if he wished to shake hands, while in the other he held a revolver. I saw him, called to the corporal to shoot him, and rode at him myself. He fired with his left hand, wounding the corporal while shaking hands then turned and fired from under my horse at me, the ball passing over my leg and under my bridle arm. How the Free State Men are to be again Cheated in Kansas.

The Star of Empire, a Pro-Slavery organ, issued in Kansas by "Capt" H. Clay Pate, who figured conspicuously, but not very creditably, in the Border Ruffian raids last year, gives the following reason for Gov. Walker's declining thus far to enforce the payment of bogus taxes:

"Gov. Walker claims not to be ready force the payment of taxes. He would wait until after the October election, so as to disfranchise as many as possible. It is his intention, as far as in his power lies, to connect suffrage with taxation He distinctly says that those who will not pay their dues for the support of the Government are alien enemies, outlaws, and, by all the rules of right and justice, have no voice in the government. This is what we have been contending for. He says they have only the right of PROTECTION, without the right of PARTICIPATION. The troops are still at Lawrence, nor is there any reason to believe they will be withdrawn soon. Lane's military preparations have something to do with their detention. Gov. Walker will strike when the opportunity is given him."

If anybody imagines that the Fre-State men of Kansas are to be allowed a free and fair vote at the Territorial Election next month, he must be grossly ig-norant or willfully blind. The shameful Apportionment, whereby nearly every Dis-trict has been made to border on Missouri, and the most intensely Free State half of the Territory has been substantially disfranchised, was not made without a purpose. We believe Five Theusand voters who voted for Stewart and Slavery last month in Missouri, will vote for Ransour and Slavery next month in Kansas. But let not one Free State man refrain from voting on this account.

It is stated that the design is to station troops at all election precincts where the Free State party is sides. The writer adds:— You can have no idea of the awful weathonly such as they please to vote. Attorney General Wier has decided that the law sit with wet cloths over our heads, but of the first session of the Bogus Legisla- the deaths from sun-stroke continue large; ture is in force; that none can vote but but that dreadful scourge cholers, those who have paid taxes, and that un- broke out, and we have lost already 70

Up to to-day we have had little to est, indeed, I would not have fed a dog with The election of officers of the Constitu-tional Convention is regarded as equivalent to a defeat of Gov. Walker. Judge El-our fare was much better to-day. All the village people ran away, and any one who had worked for the Europeans the murderers killed, so if the population was to a man against us, we should stand but a ests of Douglas. The two Free State
Delegates were refused scats in the Conwith both his hands cut off and his nose slit, because he had sent in bread to us, I need not say how anxiously we all look for a large army from England. We can hold our own well enough until it arrives, but India was never in such a mess, and it

requires many a strong arm and wise head

to put it in order again. The Bengal army

is to a man against us, and I am very nervous about Madras and Bombay; a sin-

gle mischance and those two armies follow. I fully expect to go on in advance with the first party to Cawupore, so shall finish this off hastily, as we get only a few hours notice. I have written to my poor wife, give all I have to know that she was on her way. We cannot leave this for the next two years at the earliest, and this mutiny might spread at any moment, so I long to hear of her being in safety. I am thankful to say that I am in sound health and fit for a campaign, though it is one I least expected, and almost envy Mortimer his high stool. I had a terrible march last week, concluding with a mile and a half in the dry sand of the Ganges, in the middle of the day. I never felt anything like it in my life. One man actually laid down and died at the end of it. So much for

soldering.

The reader may form a pretty tolerable idea from the adove, of some of the horrors of war. Among them may be included. attacks from natives, want of provisions cholers, and sickness and death from heat, over-exertion and fatigue. The business i a serious one at all times, and rarely pays.

not deny it .- Cleveland leader, There are weak men of codrse, in all parties, and it seems that some of the Know Nothings of Cleveland consent to be supported for office by the Democratic party. The Democracy gladly adopt these Know Nothings as their candidates to beat the Republicans. Unquestionably the lips of every Democratic speaker there are eloquent with the praises of the noble and patriotic Know Nothings. The reason is that the Know Nothings are supposed to be strong at that particular point, whilst

the Republicans are. There is not a spot in all the the country where the Democracy would not, to subserve their own purposes, eulogize the Know Nothings as vehemently as they now eulogize the old Whigs. What they now call "dark lanterns," they would denominate earthly suns ever shir nominate earthly suns ever shining in glo-rious meridian splendor.—Louisville Jour-

The so-called Democracy desire office. rather than the success of principles; there-fore they abandon the latter, and erect new platforms once in every two or three years. They would be Know Nothings, Abolitionists, Amalgamationists, or Prob bitionists, if, by adopting such a creed, they could obtain possession of the spoils. The leaders of the Dred Scott party are as dishonest in their professions as was Judas Iscariot. He betrayed his master for thirty pieces of silver. They would betray e people and the country for Nationa State, or County offices .- Cin. Gaz.

Payne's Chief Sham.

The Cleveland Leader says: That Payne declared, "to take the negro from Africa and enslave him in the South, was an act of humanity, in as much as he was thereby brought under the influence of CHRIS-TIANITY and CIVILIZATION!

This is the great sham of all such men. It follows, of course, that the more negroes we can bring from Africa, and make slave of, the better! The Southern Convention passed a resolution in favor of the Slave-Trade; and Payne is supporting it in Ohio That is right. Let the Sham Democracy take their seats in the car where they be long .- Cin. Gaz.

Thirty-six Persons Poisoned.

Augusta, Ga., Sept. 20. On Sunday last, in Pike county, Ala. 36 persons were poisoned—six of whom are dead. A negro cook mixed arsenic with the food of the family, at the instigation of a Hungarian named Coskins Thos. Erazell, the overseer's wife and two children, Mrs. Claud and a grand-daughter, are dead, and the others living are in a critical condition. The negro woman was burnt, and Coskina will undergo the same fate to-day.

A Bloomington (Ill.) paper says— "Wheat declined to fifty cents per bushel in this market Thursday. The main cause of the rapid decline is, that in the presen unsettled state of affairs East, the Ch bankers refuse to discount the drafts of produce dealers, (or for anybody else in fact,) many of whom are, therefore, unable to continue buying. At present rates presume farmers will generally their grain from market."
